Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, drawn to a method for making mixed-metal particles, classified in class 427, subclass 383.3.
 - II. Claims 9-24, drawn to a process for making a mixed-metal compound material, classified in class 427, subclass 212.

Distinctness

The inventions are distinct, each from the other because:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects because invention I relates to a method for making mixed-metal particles by forming droplets from a solution of metals, followed by pyrolysis of the contents of the droplets, while invention II relates to a process for making a mixed-metal compound material by reacting a precursor material comprising mixed-metal particles with a reactant material.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. Chris Eberspacher on January 10, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1762

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
